

## **G-Scan Update Procedure**

1/. Go to <u>www.gscan.com.au</u> - click **MENU** button and select **Members Area** - enter your name & scan tool serial number and click **Log-In** 

2/. Download latest versione.g. AU\_AUG\_2011.zip - we recommend save to the Desktop

3/.When DOWNLOAD has finished, right click Desktop and from the drop down Menu select 'New' and then 'Folder'

	Eolder						
Arrange Icons By Refresh	Shortcut Microsoft Access Database						
Paste Paste Shortcut Shared Folder Synchronization Adobe Drive CS4	Right click on Desktop Select 'New'						
New	Jelect Folder						
Properties							

Select & Rename the folder to something you will remember – our example shows Gscan\_042011

Now select the downloaded zip file and drag 'n' drop the file into your named folder

4/. Open your named folder and right click the downloaded zip file

Once files have been extracted into your folder, select the file named 'setup.exe' and install the latest PC Utility SW – the program G-Scan PC Utility will show July,2011 after installation

6/. Re-insert SD card into G-Scan. Supply scan tool with external power as firmware will automatically update once your scan tool is switched on

7/. We recommend keeping your named Desktop G-Scan folder and the contents until completion of your next new G-Scan software download
